WE CAN’T IGNORE THE ISSUE OF TIME (BUT...)

Key barriers to getting involved:

- I do other things with my spare time: 27
- I don’t want to make an ongoing commitment: 25
- I have not been asked: 16

Being flexible with the time committed is most likely to encourage potential volunteers.

OPPORTUNITIES...
OLD POWER VALUES

Managerialism, institutionalism, representative governance
Exclusivity, competition, authority, resource consolidation
Discretion, confidentiality, separation between private and public spheres
Professionalism, specialization
Long-term affiliation and loyalty, less overall participation

NEW POWER VALUES

Informal, opt-in decision making; self-organization; networked governance
Open source collaboration, crowd wisdom, sharing
Radical transparency
Do-it-ourselves, “maker culture”
Short-term, conditional affiliation; more overall participation

How do I get referred?  Where do I send referral forms?  Where are the sessions?

Any questions about referrals contact: referrals@artlift.org or telephone: 03000 200 102 Monday - Friday 10.00am - 1.00pm

What is an Artlift Session like?

Informal and fun, an experienced artist gently introduces some new ideas and creative techniques to help you explore your own creativity and learn new skills at your own pace. No previous experience is necessary. The sessions are focused on arts and creativity and are different to counselling or therapy. Here is simply a place to be yourself, discover a new interest and be creative. Participants are from all walks of life and different ages who are looking for inspiration and focus in a relaxed and familiar environment.

Most sessions take place within a GP surgery or community location and are for 8 weeks.

I'M OVERHEAD.

“I manage fundraising for the Breast Cancer Alliance. My job is to get more people to give so that our researchers can do more to find a cure. My salary gets labeled as “overhead,” as if the work I do doesn’t go to the cause. But without the work I do and the money I raise, there is no cause. My sister died of breast cancer. That’s why I do this work. I’m committed to the cause every bit as much as the doctors who do the research. I work on “the cause” every hour of the day, every day of the week. Overhead gets a bad rap. My name is Martin Hodges. I’m committed to ending breast cancer, and I’m overhead.”
